

# SAN JOSE STATE COLLEGE SummertimeS

Vol. XIV

SAN JOSE, CALIFORNIA, FRIDAY, JUNE 29, 1951

No. 2

## Bay Area Contractors Accept College Music Building Bids

Confirmation of the State Division of Architecture's acceptance of Bay Area contractors' bids amounting to \$950,000 for the construction of a new Music building at San Jose State college was given by Mr. Glen Guttormsen, accounting officer, yesterday.

According to Dr. Lyle W. Downey, Music department head, the ultimate cost of the structure will be well over the \$1 million mark, because the price of equipment will be at least \$100,000.

Blue prints for the new building include 40 practice rooms, 18 studios and classrooms, 17 instructors' offices and a concert hall capable of seating 700 people.

Construction on the new building should begin in the early part of July, Dr. Downey said. The structure will be located in the area bounded between Seventh and Eighth streets and San Carlos and San Antonio streets.

Construction will be under the entire supervision of the Division of Architecture, Mr. Guttormsen said. Outside of the planning stage and selection of equipment, he explained, the college will have nothing to do with the new building until it is completed.

## Registration Dance Starts Summer Session Activities

By PAT PATRICKS

The summer recreation program got off to a successful start Monday evening, despite the fact that the 250 persons who attended had to contend with a "cantankerous" PA system and the poor acoustics of the Men's gym.

According to Don Eager, Summer Session director, none of the newly purchased recordings were used at the dance. The committee had 10 new recordings on hand, but the acoustics are so poor in the Men's gym that it takes a skilled PA operator to successfully play recordings containing vocal solos. All 10 of the new recordings contain vocal solos.

The dilemma came about as the result of a last minute switch in locations for the dance. The dance had been previously scheduled for the Women's gym, but had to be changed because of unfinished painting and the installation of acoustic tile in the gym building.

The game and refreshment facilities were well received by the participants, according to Eager. Many persons took advantage of the games, and the cokes were all gone in a few hours. Sixteen cases of cokes were consumed by the crowd, Eager said.

## Women's P.E. Offers Full Schedule

"Due to completion of the new gym, a full women's physical education Summer Session schedule can be offered for the first time," according to Dr. Hildegard Spreen, associate professor of women's P.E.

"And during this Summer Session," she continued, "the area of aquatics will be emphasized with a series of special courses."

These courses, which will be valuable to prospective teachers of physical education and recreation, will include swimming, diving, small craft, organization and administration of water safety programs, and work leading to the American Red Cross Senior Life-saving and Water Safety Instructor's certificates.

Dr. Spreen and Mrs. Helen Cooper, instructor in physical education, will conduct the aquatic classes.

## 'Date' Data Ready

Information concerning class hours, local addresses, home addresses, telephone numbers, etc. of all students registered for the 1951 Summer Session are on file in the Dean of Women's office, Mrs. Izetta Pritchard, acting dean of women, explained today.

This information is available to all students, Mrs. Pritchard said, and can be very useful in many ways. The information is in the form of cards which were filled out by students on registration day.

## Newman Club Notes Events

Newman club has scheduled its "first big event of the summer" tomorrow, according to Josephine Tersini, club vice-president. The affair will be an open house lasting from 9 to 12 p.m.

Miss Tersini said there will be dancing, games, and refreshments. All students are invited to get acquainted at the activity.

Activities for the summer include religious discussions, a weekend camping trip, and a Sunday beach trip.

Informal meetings will be held Wednesday evenings at 8 o'clock at the club to work out details for the functions.

The Newman club will be open during Summer Session for the use of students, according to Miss Tersini.

## Learn to Drive Course Open

More than 50 persons interested in learning to drive are needed in the driver education program, according to Mr. Rufus H. Tucker, instructor of driver education.

Although the driver education course is set up to teach driving to working school teachers, the additional persons are needed to give the teachers experience in instructing students.

Persons interested in receiving driving instruction should contact the Industrial Arts department secretary and leave their names, addresses, and telephone numbers, Mr. Tucker said.

## Library Reveals Summer Schedule

For the first time the San Jose State college library will remain open six days a week during a summer quarter, Miss Joyce Backus, head librarian, revealed recently.

Hours for the library announced by Miss Backus are: Monday through Thursday, 8 a.m. to 10 p.m.; Friday, 8 a.m. to 5:30 p.m.; and Saturday, 9 a.m. to 5 p.m.

The reserve book room will open one-half hour earlier during the summer than during the regular year, Miss Backus said. The hours for the reserve book room are: Monday through Thursday, 7 a.m. to 10 p.m.; Friday, 7 a.m. to 5:30 p.m.; Saturday, 9 a.m. to 5 p.m.

Several San Jose State librarianship graduates have been hired to replace regular staff members during the summer session. Among these are Maxine Books, Orma Quinley, and Edith Slikbarg, all June graduates of SJS.

Miss Backus stated that summer quarter students may check out books from the library for only one week during the summer instead of the customary two weeks. This, she explained, was to provide more students with the opportunity of reading certain hard-to-get books.

## 1951 Yearbook Still Available

Copies of the 1951 college yearbook still may be purchased at the Graduate Manager's office, Keith Kerwin, La Torre publicity manager, announced today. According to the publicity manager, the 1951 book contains many unusual features.

For instance, he explained, the four color panoramic photograph on the cover of the annual and the four page group picture of more than 3000 students are both outstanding features.

Only 50 copies of the yearbook are left of the 2500 on hand last quarter, the publicity manager concluded. These will be sold on a first-come first-served basis for the regular price of \$5 each.

## SJS Editions Cut

Only two issues of the SummertimeS will appear next week, according to Editor Fred Westphal.

Because of the Fourth of July holiday, the student newspaper will be issued on Monday and Friday.

## State College ASB Fee Not to Be Hiked at SJS

Last week's passage of a State Senate measure making student body fees mandatory in all California state colleges and limiting the dues at \$20 a year definitely will not cause fees at San Jose State college to be increased.

Graduate Manager Bill Felse assures the student body that San

WILLIAM FELSE

Jose rate of \$15 will not be hiked to the limit of \$20 provided by the Senate bill. Gov. Earl Warren has yet to sign the bill.

In any case the students themselves will decide whether ASB card fees will be increased, Felse said. "The Student Council along with the college Board of Control has power to make any changes in dues," he explained.

The Board of Control is made up of the ASB president and treasurer, a faculty member selected by the students, the college comptroller, a faculty adviser to the Student Council, and Felse.

Another provision of the Senate bill is that in "hardship" cases students may work for their student body cards instead of paying for them. "This is a loophole in the bill which will have to be worked out soon," the Graduate Manager remarked.

Joe E. West, dean of students, said the "hardship" cases will probably work on the campus to defray the cost of the card.

"With the passage of the new bill we'll have a much better set-up from a business standpoint," Felse added. "Maybe the college will be able to construct a new Student Union building on campus. We sure can use one," he remarked.

## AAA Official Talks Safety

Edwin S. Moore, head of the San Francisco public safety department of the American Automobile association, spoke Tuesday before 30 students in the driver education class. Mr. Moore's topic was "Accidents and Their Causes."

"Accidents do not just happen, they are caused," the speaker emphasized. Mr. Moore presented statistics proving that 70 per cent of all accidents are caused by man.

The 90-minute speech was recorded on a tape recorder by the Audio-Visual department and will be played back to the other sections of the driver education class. Recordings of the speech also will be made available to students for use as teaching aids when they return to their schools in the fall, according to Mr. Rufus Tucker, driving class instructor.

## Summer Teachers Get Pay Increase

Confirmation of a five per cent pay increases of summer session teachers' salaries has been received by the college, Mr. Glen Guttormsen, accounting officer, said yesterday.

Mr. Guttormsen said that he received a letter from Dr. J. A. Burkman, division chief of state college and teachers' education, which declared the pay raise to be in effect as of June 1.

## SJS Sells Pratt Hall for \$26,000

Pratt Hall, 1195 S. First street, which has housed San Jose State college coed since 1945, has been sold for eventual conversion to apartments.

The building was planned originally by Mrs. W. W. Pratt as a shelter for the aged and for children who needed homes. A few years after the home was built in 1889, the children were moved elsewhere, but one wing of the home has remained opened for older persons.

Sylvain Le Deit Sr., owner of a glass company here, is new owner of the building. Revenue stamps indicate the structure was purchased for approximately \$26,000.

The college's lease on the main part of the home expires in September, but the coeds vacated the hall at the end of spring quarter.

## P.E. Classes Open

"Women's physical education classes are still open," states Mrs. Lenore Luedemann of the Women's P.E. department. "Any regularly enrolled student may register for an activity class which will count as one-quarter of the required six quarters of physical education."

## Registration Closes Today, Mosher Says

Registration closes today for the six and ten week summer sessions, according to Dr. Raymond M. Mosher, dean of Summer Session. Dr. Mosher already has reported a "substantial" enrollment in the courses now offered.

"The summer students seem to be filling up the departments which are in operation, and classes offered seem to be meeting their needs," he said.

The total number of students on campus for the summer quarter will be made available for publication early next week, and it is not yet known the number of veterans attending school past the June 25 expiration deadline for enrolling.

## Movie Operators Needed by College

The Audio-Visual Service Center needs student projectionists for the Summer Session, according to Mr. Richard Lewis, associate professor of education. Employment can be offered on a part-time basis, Mr. Lewis said.

Application can be made at the center's office, B2. The phone number is extension 307.

Experienced projectionists, Mr. Lewis said, are especially needed. Those who are qualified in 16mm sound, and who have military or institutional experience are preferred.

## Swimming Switch

Don Eager, recreation director, has announced that there will be no recreational swimming held in the Women's gym pool as was previously scheduled. Instead, all recreational swimming will be co-recreational and will be held at the same scheduled hours (2:15 to 4:15 p.m., MWF) in the Men's pool. Guest cards for friends, faculty, and non-Student Activity card holders, may be obtained in the Graduate Manager's office by any regular card holder.

## Tenure Teachers May Remain

The controversy over dismissal of San Jose State college faculty members who have tenure apparently was ended last week when President T. W. MacQuarrie announced that there will be no enforced dismissals of those with tenure.

Announcement of the dismissals came last quarter after the college received instructions from the State Department of Education to reduce the faculty because of a prospective drop in enrollment

next year.

Dr. MacQuarrie said there have been enough resignations and people going on military leave that there will be no enforced dismissals of people with tenure.

Nine of those slated for dismissal had tenure. Dr. MacQuarrie said, however, it probably will be necessary to drop some faculty members who do not have tenure. "We will be able to handle this the way we would any other year," he said.

## SJS Author-Instructor Says Future of Television Secure

"If a fellow student's uncle hadn't died I would have been a history teacher," said Dr. Edgar E. Willis, associate professor of speech at San Jose State college and author of a newly-published book on radio and television.

The other student was chosen to direct a Wayne university radio program. When his uncle died and left him a million dollars, he decided not to come back to school. Dr. Willis took over the directing job and became so interested in radio that he decided to make it his career. That was in 1933.

Since then, Dr. Willis has been engaged in many phases of radio work. He estimates that he has planned, performed, or

narrated more than 400 scripts.

Specific jobs include the staff of the radio department of Detroit public schools and director of WHA radio programs at the University of Wisconsin.

As a Navy lieutenant, junior grade for two years, he was a fighter-director officer in the Iwojima and Okinawa campaigns. He operated radar to intercept enemy raids and radioed the news to fighter planes.

Today he is teaching techniques in radio here. His book, *Foundations in Broadcasting: Radio and Television*, is a basic textbook for those mediums.

The writing of the book took a long time. Dr. Willis first started thinking about it and organizing his thoughts in December, 1947. In March of the next year he put the first words down on paper, and the book appeared in print early this year.

Dr. Willis has some decided views on the future of radio and television. He believes that television is the coming thing, but that it will not completely supplant radio.

Said Dr. Willis: "When the phonograph was invented, they predicted that pianos would go out of existence. When the radio was invented, they predicted that phonographs would go out of existence. Now that television has been invented, they are predicting that radio will go out of existence."

"I don't believe radio will ever vanish, any more than the piano or the phonograph has. It performed many services more adequately than does television. Music, news, and certain types of dramatic productions can be presented to better advantage over radio networks than TV channels."

The broadcasting of sports events over TV channels will not cause a drop in attendance, according to Dr. Willis. "My personal opinion is that television cannot possibly present the full panorama of a sports contest," he said, "so attendance will not be too greatly decreased."

Dr. Willis feels that television will be a good educating medium in the future and for this reason he commends the reservation of TV channels for the use of educators when they will be financially able to buy. In the field of radio improvement, he believes that F.M. stations will gain in popularity but that they will not completely supplant A.M. stations.

Advertising, he says, will continue appealing to the six-year level as long as results prove that that appeal is also effectively reaching the adult population.

## Meetings

**Credential Candidates:** Students expecting to receive a credential from the college by the end of summer quarter should come to the Health office, Room 31, before July 6 to make a physical examination appointment.

**Lambda Chi Alpha:** Zeta Nu and other Zetas meet at chapter house, 525 S. Sixth street, Thursday, July 5 at 7 p.m. to discuss summer social functions.

## Bright Future For Graduates Seeking Jobs

"There have been more calls for B.A. graduates than at any other time," according to Mrs. Dee Lewis, Placement office secretary. Mrs. Lewis is taking over Placement Director Doris Robinson's work until she returns from her vacation July 12.

"We are trying to expand placements along business lines," Mrs. Lewis said. There has been a shortage of people to fill clerical positions for the past six months, she explained.

Mrs. Lewis urged people with typing and shorthand ability to contact the Placement office. "I will be able to place people with clerical ability within a few days," she said.

Students registered for placement should leave their Summer Session class schedules at the Placement office.

Social workers, therapists, and salesmen are also needed, Mrs. Lewis explained. A social worker with a B.A. degree is needed to fill a position with the Sonoma county Social Service department, she said.

Positions for a speech therapist, occupational therapist, and physiotherapist are open in a Missouri Cerebral Palsy nursery school, and a salesman's position with a national company is open, Mrs. Lewis explained. People interested in these jobs should contact the Placement office, she said.

The Placement office handles all full-time employment. The office is located in Room 108. The part-time employment bureau is in the Dean of Men's office.

## Alumni to Watch Free Race July 6

San Jose State college alumni now on campus will have an opportunity to witness bicycle racing free of charge at the San Jose Velodrome Friday night, July 6, Joe Juliano, alumni director, announced yesterday.

Juliano said that he has made an agreement with Murphy Sabatino, promoter at the Velodrome, which will admit alumni members with active alumni cards at the student rate. To acquaint alumni members with the Velodrome, Sabatino has agreed to admit alumni members to the July 6 races free of charge.

Last quarter, Juliano pointed out, the Hillview golf course agreed to admit alumni members with active alumni cards for the student rate.

Alumni interested in attending the July 6 event should fill out the coupon and put it in the Alumni box in the Information office, Juliano said.

## Street Excavation Work To Be Completed Monday

By MIKE ALAIMO

By the time Spartans return to their classrooms Monday tranquility should be restored around the usually peaceful and quiet campus—at least for a couple of weeks!

No longer will weary students and teachers hear the banging and clanking of the huge crane, shovel, ditch-digger and trucks of the Bebek and Brkich Construction company. The company's crews are installing concrete storm drainage pipes around Washington Square.

"We should finish work on San Carlos and Fourth streets by the week-end," said Bert Butterfield, construction superintendent.

This is good news for students and faculty members who drive to the college. All the parking spaces on Fourth street between the Men's gym and the Student Union, and the block-long strip on San Carlos street will be open.

A rather sad note was injected into the future hopes for peace and quiet when Butterfield said his

## SJS Committee Works For Good Relationships

San Jose State college has a unique committee functioning on its campus. This committee, the Fairness committee, was established three years ago in an effort to create and maintain a harmonious relationship between the faculty and student body at SJS.

Mr. Elmo Robinson, Philosophy department head, has been chairman of the committee since its birth.

## Pills, Pulse, Pain, See Health Office; Ills Treated--8 to 5

Health office hours have been changed in order to provide for noon hour emergencies, according to Miss Margaret Twombly, college Health department head.

Someone will be on duty continuously from 8 a.m. to 5 p.m., Miss Twombly explained. A 12 o'clock lunch hour was listed in the previous Health office schedule.

Health and Hygiene 155, an instructor's course in first aid, has also been changed, Miss Twombly said. The class will be given Monday, Wednesday, and Friday instead of daily as listed in the Summer Session bulletin, she explained.

"The State Department of Education has passed a ruling requiring all high school graduates to have a first aid course," Miss Twombly said. The instructor's first aid course is still open to anyone desiring to take it, she pointed out.

The first aid course is given from 9 to 10:50 a.m. and again from 1 to 2:50 p.m. in B74. Two units and a Red Cross Instructor's credential are granted for the six weeks of class study.

The type of illness prevalent on campus in the summer is the mild chronic variety, Miss Twombly said. "Certain types of chronic conditions are better cared for under the continuous care of a private physician," she explained.

The Health office is located in Room 31. One nurse and one physician are on duty.

Place this coupon in the Alumni box in the Information office.

man of the committee since its birth.

"The function of the Fairness committee is to investigate, report, and recommend," explained Mr. Robinson in a statement to the Spartan Daily last year. "The committee does not want to act as a court," Mr. Robinson concluded. "The best it can do is to recommend for the future."

In a case reviewed last year by the committee, a group of students protested through the Thrust and Parry column of the Spartan Daily that they had been treated unfairly in a course given in the Art department. The committee considered the case, discussed the matter with the students and the faculty members involved, and adjusted the situation with compromises from both parties.

The Fairness committee acts upon cases involving either a student and a faculty member of two students. The committee stresses that fairness actually depends upon the individual student. In a statement issued last year, the Fairness committee cautioned:

"Give no suggestion of dishonesty to others. Permit no one to take advantage of you. If unfair practices come to your attention, or if you believe yourself treated unfairly, discuss the situation with your instructor, with the Dean of Men, the Dean of Women, or with a student or faculty member of the Fairness committee."

## Multnomah Dean Addresses Class

Dean Burl M. Abel, head of the junior college division of Multnomah college in Portland, Ore., is speaking today on shorthand methods in Mr. Kenneth B. Coffin's Materials and Methods of Teaching Shorthand class.

Dean Abel is visiting the San Jose State college Commerce department today as part of a six-week trip to his former Oklahoma home.

Dean and Mrs. Abel and their two children, Mike and Joan, are guests at Mr. Coffin's Campbell home. Mr. Coffin and Dean Abel met at the University of Washington where they were both guest instructors of commerce.

Dean Abel will attend an administrators' conference on junior colleges July 2-4 at the University of Colorado in Boulder. He also plans to visit the Oklahoma State college for women where he was a commercial education head.

Henry Steiling and the boys

May your Summer studies be pleasant and enjoyable. And, a hearty welcome back to all the Alumni.

# Miss Gould, Gene Ellison To Marry Here Tomorrow

Miss Thelma Gould will become the bride of Gene Ellison at a 2 p.m. service at Trinity Episcopal church in San Jose tomorrow. The Rev. Mr. Howard Scholten will officiate at the ceremony.

Thelma is the daughter of Mr. and Mrs. William Gould of Campbell. Mr. Gould, a member of the Journalism department faculty, will give his daughter in marriage.

The bride will be attired in a gown of white nylon marquisette and lace, and will carry a bouquet of white gladiolas and bouvardia.

Miss Patricia Feit will serve as the bride's maid of honor, and will be gowned in pink organdy. A picture hat will complete her ensemble. She will carry pink roses.

Morris Ellison will act as his brother's best man, and ushering will be Bill Chambers, Booge Kendall, and Frank Lobrovich.

Following the ceremony, a reception will be held at the home of the bride's parents.

The couple will reside in San Jose, and the new Mrs. Ellison will

continue her studies at San Jose State college, where she is majoring in education.

The bridegroom attended high school in Sioux City, Iowa, and San Jose State college. He is now employed in San Jose.

## Spartan Pair Repeat Vows In Santa Cruz

An informal evening ceremony at the Santa Cruz Presbyterian church was chosen by Miss Jerone Cecelia Young for her wedding to Floyd Ernest Brisbine.

Close friends and relatives of the couple witnessed the ceremony, for which the bride wore a ballerina length gown of rose-point lace over satin, and a nylon net fingertip length veil. She carried a bouquet of bouvardia with seven white orchids.

The bride attended Riverside Junior college and San Jose State college, and her husband will be graduated from SJS in December. He is a member of Sigma Alpha Epsilon.

Miss Barbara Lee Butler of Bakersfield was maid of honor, and Gordon Ludwig of Pasadena served as best man.

The new Mrs. Brisbine is the daughter of Mr. and Mrs. Raymond John Young of China Lake, and the bridegroom is the son of Mrs. Ernest M. Brisbine of Pasadena.

## Begin Remodeling In Morris Dailey

Remodeling of the stage of the Morris Dailey auditorium has begun, Mr. Byron Bollinger, superintendent of buildings and grounds revealed yesterday.

The fire marshal has been quite concerned since 1946 with the fire hazard of having such a high ceiling over the stage, Bollinger declared. To correct this, he said, a new closed ceiling will be constructed over the stage and a sprinkler system installed.

Gum panelling, like that on the auditorium's walls, he said, would be placed along the front of the stage.

Because it lacked facilities for the changing of scenes and backdrops, the auditorium was never used for large productions. According to Bollinger the necessary equipment to accomplish this will be installed during the remodeling.

Although the auditorium will be closed during Summer Sessions, it will be finished and ready for use in the fall, Bollinger revealed.

## Miss Summers Weds Former Spartan Editor

Jacob R. Summers of San Francisco will escort his daughter, Marion, down the aisle of St. Leo's church tomorrow morning at 10 o'clock, when she will become the bride of John H. Russell.

The couple announced their engagement last December to the Spartan Daily staff, when Jack was editor in chief, and Marion was serving as feature editor.

Miss Summers attended Stephens college in Columbia, Mo., previous to enrolling here. She received her bachelor of arts degree in June, and was a member of the "30" club, journalism organization.

Russell is the son of Mrs. Hazel Russell of San Jose. A March graduate, he was a member of Tau Delta Phi, Sigma Sigma, "30" club, and was one of the college representatives in "Who's Who in American Colleges and Universities." He is now employed by the Mountain View Register-Leader.

## Dean Dimmick Returns to Campus

The Dean of Women, Miss Helen Dimmick, will return to the campus Tuesday, July 3. Miss Dimmick has been absent from her office for two months recovering from a serious operation, according to Mrs. Izetta Pritchard, acting dean of women.

Friday, June 29, 1951

SUMMERTIMES Three

## Jellsett-Pierce Vows First Read In New Bible College Chapel

Miss Bernice Jellsett and Marlin Pierce repeated vows to become the first couple married in the new San Jose Bible College Chapel early this month.

The bride, who was graduated from the Bible college in May, was gowned in white satin for the ceremony. A crown of orange blossoms accented with pearls, held her fingertip length veil.

Mrs. Maxine Applebury of Vi-

salia, the bridegroom's sister, served as matron of honor, and Mrs. Marjorie Brown of Big Creek was bridesmaid.

Maurice Pierce served his brother as best man, and George Westfeldt and Wayne Thomas seated the guests.

A reception followed in an adjoining hall, where guests were met by the couple and their parents, Mrs. Esther Jellsett, and Mr. and Mrs. Clarence C. Pierce of Medford, Ore.

The bridegroom will continue his studies at San Jose State college before entering the ministry.

## Injured Vet Meets Former Classmate

Two former San Jose State college students met unexpectedly at an airfield in Honolulu recently. One of the former students was a wounded Marine private being flown to Mare Island hospital for treatment of machine gun wounds, and the other was an airline hostess on her first flight.

Marine Pvt. James O'Connor, son of San Jose Police Judge Percy O'Connor, had attended high school and college with Betty Hurst, stewardess on the plane returning Jim to the States.

O'Connor was wounded by machine gun bullets in the left forearm while attempting to knock out an enemy machine gun nest.

Miss Hurst is the daughter of Mrs. D. B. Hurst, 1681 The Alameda. Upon her return to San Jose she contacted Judge and Mrs. O'Connor, and gave them a firsthand account of their son's condition.

## Student Art Exhibit Is Open to Public

Students and the general public have an opportunity to view the best student art works of the past school year in the rooms and hallways of the art wing. The annual student exhibit ends next Friday, according to Mr. Theodore J. Johnson.

Included in the displays are works of classes in ceramics, jewelry, sculpture, weaving, decorative needlework, crafts, drawing and composition, commercial art, design, life drawing, public school art, water color, and oil painting.

Mr. Nels E. Oback, art instructor, is the general exhibit chairman.

In the library reserve bookroom, over 35 "inspirational sketches" of a Walt Disney studio production designer are on display. The artist is Mrs. Mary Robinson Blair, former San Jose State college student.

The sketches are from "Alice in Wonderland," "Cinderella," and the forthcoming production, "Peter Pan."

## Get Your Letters

Students are reminded that all mail sent to them or campus organizations in care of the college will be forwarded to the Spartan Coop, Mrs. Betty Street of the Information office said yesterday.

Any mail which has not been claimed within a two-week period is returned to the sender, she added.

Mrs. Street also wishes to remind students that the lost and found department is located in the information office.

## Speech Dept. Adds Two New Aids Courses

Teachers, school administrators, and nurses will be interested in two new speech courses being offered, according to Miss Vivian Lang, assistant professor of speech. Miss Lang reminded that today is the last day to add courses.

The courses concern hearing conservation and aural rehabilitation. These courses, according to Miss Lang, "will be applicable on the state credential for the teaching of lip reading and give the necessary training for the certificate of registration as school audiometrist."

One course, Introduction to Rehabilitation of the Hard of Hearing, will survey problems in the prevention and treatment of hearing loss. The other course, Techniques of Rehabilitation, will present the various theories, methods, and materials of teaching lip reading, auditory training, and speech conservation, Miss Lang said.

The students enrolled in the second course will learn to read lips through the use of motion pictures, according to Miss Lang.

## Ex-Spartan Killed In Airplane Crash

Capt. Frank J. Crawford, veteran pilot killed in a Pan American Constellation crash in the jungles of Liberia Saturday, was Spartan yell leader in 1933 and 1934.

Out of Oakland Castlemont high school, Crawford majored in education at San Jose State college. He was assistant yell leader in 1933 and co-head yell leader the following year.

Wreckage of the big Constellation with 40 passengers and crewmen was found on a 1500-foot hill near Monrovia, Liberia.

Half an hour overdue, Capt. Crawford radioed that he still had not sighted Roberts Field in the African republic. This was the last word received from the doomed plane.

## Vets May Receive Life Insurance

Veterans recently discharged from service and suffering from disabilities incurred in active service may be eligible for a new type of government life insurance, Edmond Hilscher, assistant county veterans' service officer, announced yesterday.

Under Public Law 23, Congress has authorized coverage up to \$10,000 for disabled veterans not in service on or after April 25, 1951, and who cannot be insured under the health standards of National Service life insurance, Hilscher said.

After the Veterans Administration finds the disabilities to be service-connected, any eligible veteran may apply for the new insurance within one year, Hilscher declared.

Because there will be no dividends paid on it, the insurance premium rates, in most cases, will be much lower than NSLI, he advised.

Veterans who feel they qualify may obtain additional information by contacting Hilscher in the county courthouse, or by writing to the Veterans Administration, 49 Fourth street, San Francisco.

## Venturi Out-Shot

Ken Venturi, Spartan golf ace, was defeated in the first round of the NCAA match play championship yesterday at Columbus, Ohio, by John Weaver of Rice university, 2-up.

Venturi previously had qualified in the 36-hole medal play test with a 74-73-147 total over the 7120-yard Scarlet country club course.

Jerry Hufford, San Jose State swimmer, holds the Livermore high school 50-yard freestyle record.

# Comedy To Be Presented In Outdoor Night Setting

By DICK RUTHERFORD

A Summertime cast will present "Jenny Kissed Me", the romantic comedy of a Catholic priest turned cupid, in the summer session theatrical debut Thursday through Saturday nights, July 5, 6, and 7.

The three-act play by Jean Kerr is the first of four modern dramas to be staged during the six-week session. "The Man," by Mel Dinelli, July 12, 13, and 14; "The Curious Savage," by John Patrick, July 19, 20, and 21; and "Accidentally Yours" by Pauline Snapp, July 26, 27, and 28, are the following plays of a full dramatic schedule.

Uniquely, the productions will be staged in the patio of the new Women's gymnasium to present a natural air-conditioning effect to the shows.

### Buy Tickets Now

Today will be the last time to purchase season tickets for the summer theater's dramatic quartet, according to Mrs. Verda Jackson, drama secretary. A season's pass for \$2.40 or \$1.60 with SJS activity cards, represents a saving of \$1.20 with general admission for each play priced at 90 cents and with a student card at 60 cents. Tickets can be purchased in Room 57.

The cast for "Jenny Kissed Me" as well as for the other three pro-

ductions, was completed following Monday's try-outs in the Little Theater. One or two male roles, according to Directors Dr. James Clancy and Mr. John Kerr, have yet to be filled in the "The Curious Savage" and "Accidentally Yours."

### Actors Well Known

The initial staging which "succeeds in treading that uneasy ground between faith and sacrifice with great good humor," according to the N.Y. Herald Tribune review, finds a cast mixed with actors well known to Spartan theater going audiences and a number of surprising newcomers.

Bert Graf, who appeared in last year's productions of "Three Sisters" and "Time and the Conways", is cast in the major role of Father Moynihan. The play is centered around the old-fashioned cleric who inserts his ideas of the "jazz-flapper" age to the present day "hepsters". The result is a conflict of the young and old 20th century society in a laughable riot.

The title role will find Georgene Bowen, who has played in previous college presentations of "Dover Road" and "Liliom", as the youthful, farmers' daughter, Jenny. As soon as Jenny enters St. Matthew's rectory the fun begins with Cupid minded Father Moynihan aiming his romantic arrows.

In featured roles will be Morgan Montague as Owen Parkside, who represents the new "hep" era, and David Woods as Michael Saunders, a left-over from the "Jazzy" early 1920's. The former will be switching his designing talents to his first acting role. He designed the animal sets for last spring quarter's "Noah". Woods is an old hand on the Spartan stage, having played in "Taming of the Shrew" and "Tonight at 8:30."

Besides the above, other important roles will be played by Thelma Fontaine, Claire Gentili, Ruth Dougherty, Shirley Gross, Joan McKibben, Joan Malloy, Lois Blair and Lee Owens. Of the list, Gross, McKibben, and Blair have all played in previous San Jose State college dramas.

### Arena Setting

Mr. J. Wendell Johnson will design the arena style setting for outdoor presentation. Miss Bernice Prisk will be in charge of costumes.

The story itself should be of interest to college students as it represents the work of a 26-year-old public speaking teacher at Catholic university in Scranton, Penn., namely Miss Kerr. It is an unusual story of a young woman writing a dramatic hit in only her second try.

## THE BIGGEST "PLUS" IN CIGARETTE HISTORY "NO UNPLEASANT AFTER-TASTE"
